

Jetpack Overview

Turning on the hotspot

1. Turn on the hotspot by holding down the power button for 2 seconds (power button is on the top)
2. When it turns on, a blue LED and the screen will illuminate
3. Information on screen
 - a. Upper left – shows whether you're connected to cellular network (4G and bars if yes)
 - b. Upper right – shows battery life
4. The blue LED will blink every 3 seconds to indicate the hotspot is on

Finding the Wifi Name and Password

1. Use the left and right arrows to highlight wifi Name/Password.
2. Press the checkbox button to display the wireless signal name and password

Connecting your device

1. Open your device's wifi settings
2. Find the hotspot's listing and select it
3. Enter the password for the hotspot

Waking up the display screen

Briefly press the power button

Turning off the hotspot

Hold down the power button for 3 seconds. The hotspot will shutdown and the screen will go black.

Charging the hotspot

1. Plug the charger into the hotspot using the microUSB connector
2. Plug the other end of the charger into an outlet
3. The hotspots take between ½ hour and an hour to charge fully
4. Battery life when the hotspot is in use is approximately a day. It will hold a charge much longer if not being actively used.
